# All in the detail

Throw caution to the wind this season with the latest in accessories. Be brave, be bold and be daring as you complete your ensemble with the perfect finishing touches. Whether it is a hat, a fascinator, a handbag or jewellery, no outfit is ready to go without the concomitant accessories.

New colour themes this season include lilac, beige, white, black and black and white. Summer brights and nautical reds and navy also make an appearance. Detailing on accessories are paramount this spring and include flowers, buckles and ruffles.

Footwear carries on the theme of last year with a gladiator style sandal coming to the fore.
