Beach scene

If you are well and truly in holiday mode then you will need the wardrobe to accompany it! This season's gems include flower power in all aspects. Find the popular design on fabric sandals, shorts, floaty tops and harem trousers. Summertime has never been so colourful!

Also popular this season are khaki colourways. The straight-from-the-desert look is perfect for those that prefer softer tones. Team a drill style dress with a chunky belt to flatter the figure and add interest to your outfit. Other accessories this summer include lightweight silk scarves which can add glamour to a casual look.
