Walk the walk

Stride out in style this spring as the latest trends transcend all ages. The tea dress is still prominent and seems to capture any occasion with prowess, although the ditsy print has been accompanied by larger patterns, flattering for any shape.

The eighties 'double denim' look has taken a sophisticated twist as soft pastels replace the harsher stonewashed style. Khaki colourways are also top of the designers' list in the fashion stakes.

Accessorise your outfit with chunky jewellery in vivid colours.
