# Summer weddings in style

**W**eddings can provide the ultimate dilemma of what to wear, particularly if you are part of the wedding party. It is critical that you look your best as the photographs will be on the mantelpiece for many years to come.

Fashion for the mother of the bride is elegant and colourful, with a combination of styles to suit all ages. Shades of blues and lilacs stand out this season with knee length hemlines proving ever-popular.

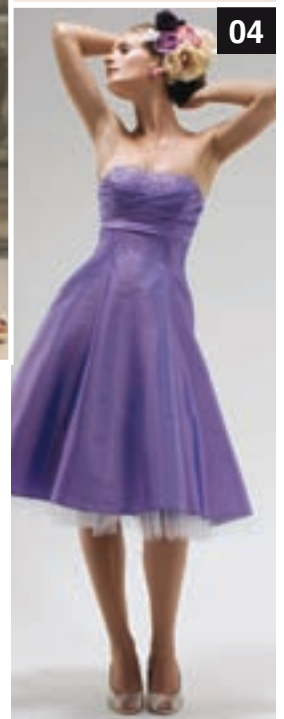

Team together with a matching hat and bag to complete the outfit. Always consider footwear practically, with many hours stood around, a sensible heel as opposed to stilettos would be the preference.
